

Have you considered tax reclamation as a portfolio performance enhancing solution?

Pensions are often tax exempt in their country of residence and in many markets the treaty rate for these institutions is 0%. Due to their tax status, pensions may be entitled to reclaim 100% of over-withheld cross-border taxes. If action is not taken in a timely manner, the Statute of Limitations will pass and the funds will be forfeited to the foreign tax authority.

The recovery of these assets can significantly impact investment returns for pension funds but the reclamation process is intricate. Due to these complexities, many custodians, particularly brokers and prime brokers, do not offer a tax reclaim service. GlobeTax provides an all-encompassing recovery solution for pensions.
